Examiners Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Theodore Fay, reg. 48,504 on 07/19/07.

Claims are being amended to overcome potential 101 issues, in claims.

IN THE CLAIMS:

2. Please amend claims 21 and 28, as follows:

Claim 21 (Currently Amended)

On line 2, after "kernel threads" insert operating on a processor .

Claim 28 (Currently Amended)

On line 1, replace "computer readable medium" with computer recordable type media .

Reasons for Allowance

3. Examiner has reviewed and considered Applicant's comments as indicated on pages 9 – 13 and 16 – 17 of his response dated 01/19/2007 as well as his current Terminal Disclaimers of 07/06/07 and is hereby placing claims 1 – 12, 14 – 21 and 23 – 34 in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

Prior art of record doesn't teach and/or suggest the following:

"...ascertaining kernel thread level profile information; identifying a kernel thread, wherein the kernel thread level profile information is attributed to the identified kernel thread; determining whether the identified kernel thread has been reused and updating profile information with the kernel thread level profile information based whether the identified kernel thread has been reused", and as best illustrated by figure 21B and 22, and as in such a manner as recited in independent claim 1.

"...receiving a value of a metric variable for a kernel thread; determining if the kernel thread has been previously used by a first application thread; and applying the value of the metric variable to a second application thread if the kernel thread has been previously used by the first application thread", and as best illustrated by figure 21B and 22, and as in such a manner as recited in independent claims 12, 19, 21 and 28.

Therefore, all remaining claims 1 – 12, 14 – 21 and 23 – 34 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
